amendment to LB 892 in the Journal. No objections. So ordered.

AM2332

1. Insert additional sections as follows:

"Section 1. The Legislature finds and declares that homeowners in Nebraska have carried an excessive share of the tax burden through property taxes. It is the intent of the Legislature to provide these property taxpayers with true property tax relief. Such relief shall take the form of a direct reimbursement to the taxpayer without an increase in any other tax.

Sec. 2. For the purpose of this act, unless the context otherwise requires, the definitions found in sections 3 to 6 of this act shall be used.

Sec. 3. Homeowner shall mean a person who (1) actually occupies and is the owner of record or is purchasing a homestead under a land contract, (2) actually occupies and owns or is purchasing a dwelling situated on the leased lands of another, (3) is a tenant-stockholder of a cooperative housing corporation, or (4) is the beneficiary of a trust of which the trustee is the record title owner and the beneficiary-occupant has (a) a specific right to occupy the premises as stated in the trust instrument, (b) the right to amend or revoke the trust to obtain such power of occupancy or of title, or (c) the power to withdraw the homestead premises from the trust and place the record title in such occupant's name.

Sec. 4. Homestead shall mean the dwelling and so much of the land surrounding it, not exceeding one acre, as is reasonably necessary for use of the dwelling as a home, and may consist of a part of a multifamily dwelling or multipurpose building and a part of the land upon which it is built. Homestead shall also include mobile homes.

Sec. 5. Household shall mean the homeowner, his or her spouse, and all other persons except minors who live in the same dwelling sharing the furnishings, facilities, accommodations, and expenses.

Sec. 6. Property taxes paid shall mean property taxes, exclusive of special assessments, delinquent interest, and charges for service, levied on a homeowner's homestead in this state in 1983 or any calendar year thereafter and actually paid by the homeowner. When a homeowner owns and occupies two or more different homesteads in the state in the same calendar year, property taxes paid shall mean the total property taxes paid for both homesteads, except that if both homesteads are simultaneously owned by the homeowner, property taxes paid shall mean the property taxes paid for only one homestead during the period of simultaneous ownership. If a homestead is an integral part of a large unit such as a farm or a multipurpose or multifamily dwelling, property taxes paid shall be a percentage of the total property taxes paid in proportion to the value of the homestead as compared to the total value of the property. For purposes of this section, unit refers to the parcel of property covered by a single tax statement of which the homestead is a part.

Sec. 7. All homesteads in this state shall be assessed for taxation the same as other property except that assistance shall be provided to homeowners on a percentage of the property tax paid on the homestead as provided in section 9 of this act.

Sec. 8. Upon request of the Tax Commissioner, each county assessor shall supply to the Department of Revenue a statement of property taxes paid by every homeowner in the county.

Sec. 9. The Tax Commissioner shall use the statement provided in section 8 of this act to calculate the tax reimbursement each homeowner shall receive. Each homeowner shall receive the lesser of forty per cent of the property taxes paid on their homestead or four hundred dollars. A check for such reimbursements shall be mailed to each recipient on or before October 15, 1984, and before such date each year thereafter, for the preceding year's property taxes.

Sec. 10. Any person aggrieved by the denial in whole or in part of relief claimed under this act, except when the denial is based upon late filing of a claim, may appeal the denial to the Department of Revenue by filing a notice of appeal within twenty days after receipt of notice of such denial. The appeal shall be made pursuant to Chapter 84, article 9.

Sec. 11. A claim shall be disallowed if the Department of Revenue finds that the claimant received title to his or her homestead primarily for the purpose of receiving benefits under this act.

Sec. 12. A person may amend a claim for relief under this act by filing an amended claim. The amended claim must be filed within two years of the filing of the initial claim.

Sec. 13. The Tax Commissioner shall adopt and promulgate rules and regulations which are necessary for the administration of this act.

Sec. 14. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

MESSAGE FROM THE GOVERNOR

April 2, 1984

Mr. President, Mr. Speaker, and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I hereby return LB 1126 with my signature but with specific line-item veto reductions.

The critical question in any budget process is: "How much can we afford to spend?" This question is asked by individuals when they budget, it is asked by families when they budget, it is asked by businesses when they budget, and it should be asked by government when it budgets.

In my message to you of March 12, 1984 I indicated that it was my strong opinion we could only afford a budget expenditure level consistent with a 3 1/2 percent sales tax rate, a 19 percent income tax rate, and a 5 percent reserve. This corresponds to an expenditure figure of $818 million, which was the budget target established by the Appropriations Committee as well.

Also in that message I outlined my intention to line-item veto the mainline appropriations measure below $800 million in order to allow us some flexibility to accommodate new initiatives in three priority areas: water, education and economic development. I have taken those actions. I made reductions in areas which have a lesser importance so as to make room for expenditures of a higher priority. These priority initiatives are not just mine. They are the product of intensive work over the last year by many individual Nebraska citizens who have given of their time, talent and energy to assist us in identifying new directions and new areas of need for the involvement of state government.

It is clear, however, that we cannot do everything. We must have the discipline to restrain our desires to spend more on the existing operations of government to provide the necessary flexibility to engage in innovation and creativity.

Is it difficult? Yes. Does it take discipline? Yes. Does it take courage? Yes. However, Nebraskans are clearly capable of accomplishing difficult and courageous objectives which require discipline.

My action on LB 1126 eliminates all but $135,000 of the over $25 million appropriation in the measure. This $135,000 is a critical component of two of our major economic development objectives.

This action taken in combination with the veto overrides to date puts the budget at a little over $817 million, leaving less than $1 million remaining for allocation.

I am sincerely disappointed that legislative action has prevented us from providing more money for the critical priority areas outlined by the individual Nebraskans who assisted in the development of these recommendations. On the bright side, however, we can still build the base this year in law to establish clear and concise policy objectives in the water, education and ecomonic development area. This will provide a sound base for us to once again debate budget priorities next year.

It is important to always keep in mind, however, that the most important objective is to establish firmly an overall spending limit consistent with a prudent and sound budget, consistent with the state of the economy, consistent with economic uncertainty, and most importantly, consistent with a fair sense of what the taxpayers of this state can afford. It continues to be clear to me that that level of spending is $818 million and we should simply have the self-discipline to achieve it.

Sincerely,
(Signed) ROBERT KERREY
Governor

The study shall include a review of the accessibility of sufficient professional liability insurance to health care providers and a study of the feasibility of requiring property and casualty insurers writing medical malpractice insurance in this state to record and report their loss and expense experience and other data as may be necessary to determine whether rates comply with the standards set forth in sections 44-1401 to 44-1442, Reissue Revised Statutes of Nebraska.

RESOLUTION

LEGISLATIVE RESOLUTION 468CA.

Introduced by DeCamp, 40th District.

A Resolution to propose an amendment to Article VIII, section 1, and by adding to such Article a new section 13, of the Constitution of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1984 there shall be submitted to the electors of the State of Nebraska for approval the following amendments to Article VIII, section 1, and by adding to such Article a new section 13, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

"Sec. 1. The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that the Legislature shall establish a separate class for land actively devoted to agricultural or horticultural use which shall not include improvements on such land and may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent as provided by the Legislature and may also establish a separate class for trucks, trailers, semi-trailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of said county on personal tangible property. The Legislature shall ~~may~~ enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall, for property tax purposes, be determined according to the productivity of ~~that value which such land has for~~ agricultural or horticultural ~~use~~ land without regard to any value which such land might have for other purposes or uses, and may prescribe standards and methods for the determination of the value of other real or ~~other~~ tangible property at uniform and proportionate values. Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared to be exempt from taxation. Taxes, other than property taxes, may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year.

Sec. 13. Beginning January 1, 1986, the maximum amount of ad valorem tax levied on any property for any taxable year shall not exceed two per cent of the actual value of such property as determined by the assessment rolls, except for ad valorem taxes levied for retiring, refunding, or servicing indebtedness approved by the voters according to law. Such limitation may be increased by an affirmative vote of four-fifths of the members of the Legislature or, within a political subdivision, by a majority vote of the electors within such subdivision voting on such issue, except that any such increased limitation shall not be effective for more than one tax year after any such vote.".

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed by Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

> "Constitutional amendment to establish separate and distinct classes of property for the purpose of taxation, to provide that land actively devoted to agricultural or horticultural use be valued based on productivity, to limit the amount of tax levied

on property, and to authorize increases as prescribed.
For
Against".

Sec. 3, That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

Referred to the Executive Board.

RESOLUTION ON FINAL READING

The following resolution was read and put upon final passage:

LEGISLATIVE RESOLUTION 235CA.

A Resolution to propose an amendment to Article V, section 30, of the Constitution of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1984 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article V, section 30, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

"Sec. 30. (1) A Justice or Judge of the Supreme Court or judge of any court of this state may be reprimanded, disciplined, censured, suspended without pay for a definite period of time, not to exceed six months, or removed from office for (a) willful misconduct in office, (b) willful disregard of or failure to perform his or her duties, (c) habitual intemperance, (d) conviction of a crime involving moral turpitude, (e) disbarment as a member of the legal profession licensed to practice law in the State of Nebraska, or (f) conduct prejudicial to the administration of justice that brings the judicial office into disrepute, or he or she may be retired for physical or mental disability seriously interfering with the performance of his or her duties if such disability is determined to be permanent or reasonably likely to become permanent. Any citizen of the State of Nebraska may request the Commission on Judicial Qualifications to consider the qualifications of any Justice or Judge of the Supreme Court or other judge, and in such event the commission shall make such investigation as the commission deems necessary and shall, upon a finding of probable cause, ~~privately~~ reprimand such Justice or Judge of the Supreme Court or other judge or order a formal open hearing to be held before it concerning the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge. In the alternative or in addition, the commission may request the Supreme Court to appoint one or more special masters who shall be judges of courts of record to hold a formal open hearing to take evidence in any such matter, and to report to the commission. If, after formal open hearing, or after considering the record and report of the masters, the commission finds that the charges are established by clear and convincing evidence, it shall recommend to the Supreme Court that the Justice or Judge of the Supreme Court or other judge involved shall be reprimanded, disciplined, censured, suspended without pay for a definite period of time not to exceed six months, removed, or retired as the case may be.

(2) The Supreme Court shall review the record of the proceedings and in its discretion may permit the introduction of additional evidence.

The Supreme Court shall make such determination as it finds just and proper, and may order the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge, or may wholly reject the recommendation. Upon an order for retirement, the Justice or Judge of the Supreme Court or other judge shall thereby be retired with the same rights and privileges as if he or she had retired pursuant to statute. Upon an order for removal, the Justice or Judge of the Supreme Court or other judge shall be removed from office, his or her salary shall cease from the date of such order, and he or she shall be ineligible for judicial office. Upon an order for suspension, the Justice or Judge of the Supreme Court or other judge shall draw no salary and shall perform no judicial functions during the period of suspension. Suspension shall not create a vacancy in the office of Justice or Judge of the Supreme Court or other judge.

(3) Upon order of the Supreme Court, a Justice or Judge of the Supreme Court or other judge shall be disqualified from acting as a Justice or Judge of the Supreme Court or other judge, without loss of salary, while there is pending (a) an indictment or information charging him or her in the United States with a crime punishable as a felony under Nebraska or federal law or (b) a recommendation to the Supreme Court by the Commission on Judicial Qualifications for his or her removal or retirement.

(4) In addition to the procedure set forth in subsections (1) and (2) of this section, on recommendation of the Commission on Judicial Qualifications or on its own motion, the Supreme Court (a) shall remove a Justice or Judge of the Supreme Court or other judge from office when in any court in the United States such justice or judge pleads guilty or no contest to a crime punishable as a felony under Nebraska or federal law, and (b) may suspend a Justice or Judge of the Supreme Court or other judge from office without salary when in any court in the United States such justice or judge is found guilty of a crime punishable as a felony under Nebraska or federal law or of any other crime that involves moral turpitude. If his or her conviction is reversed, suspension shall terminate and he or she shall be paid his or her salary for the period of suspension. If he or she is suspended and his or her conviction becomes final the Supreme Court shall remove him or her from office.

(5) All papers filed with and proceedings before the commission or masters appointed by the Supreme Court pursuant to this section prior to a reprimand or ~~any~~ formal open hearing shall be confidential. The filing of papers with and the testimony given before the commission or masters or the Supreme Court shall be deemed a privileged communication.

When the Commission on Judicial Qualifications determines that disciplinary action is warranted, whether it be a reprimand or otherwise, the Commission on Judicial Qualifications shall issue one or more short announcements confirming that a complaint has been filed; stating the subject and nature of the complaint, the disciplinary action recommended or reprimand issued, or the date of the hearing; clarifying the procedural aspects; and reciting the right of a judge to a fair hearing.

When the Commission on Judicial Qualifications determines that disciplinary action is not warranted, and the existence of any investigation or complaint has become publicly known, the judge against whom a complaint has been filed or investigation commenced may waive the confidentiality of papers and proceedings under this subsection.

The Supreme Court shall by rule provide for procedure under this section before the commission, the masters, and the Supreme Court.

(6) No Justice or Judge of the Supreme Court or other judge shall participate, as a member of the commission, or as a master, or as a member of the Supreme Court, in any proceedings involving his or her own reprimand, discipline, censure, suspension, removal, or retirement.".

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed by Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

> "Constitutional amendment to change provisions and procedures relating to disciplinary actions against judges.

For
Against".

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

Dear Senators:

I hereby return LBs 38, 38A, 507, 507A, 1056 and 1056A without my signature and with my objections.

As I indicated to you in my last message on LB 1126, I feel strongly that we must adopt a budget consistent with a 3 1/2 percent sales tax rate, a 19 percent income tax rate, and a 5 percent reserve.

The above measures simply do not fit within this budget constraint. I recognize that one of these measures had my original support when I submitted my budget recommendations on the third day of the Legislative session, but at this point even some of our individual priorities must be sacrificed to meet our overall budgetary goals.

I urge you to sustain these vetos.

Sincerely,
(Signed) ROBERT KERREY
Governor

EXPLANATION OF VOTE

Had I been present, I would have voted Aye on LB 920.

MESSAGES FROM THE GOVERNOR

April 9, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I hereby return LB 568 and LB 568A without my signature and with my objections. LB 568 would provide additional State tax support for vocational education which is not an objectionable notion. However, due to our precarious financial situation, and in light of my broader goals for educational improvement, LB 568 is not a priority measure.

Sincerely,
(Signed) ROBERT KERREY
Governor

April 9, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I hereby return LB 970A with my signature, my objections, and my line item reductions. LB 970 allows for the establishment of Master of Business Administration programs at Kearney, Chadron, and Wayne State Colleges.

My line item reductions to LB 970A strike the funding for the Chadron and Wayne programs. The transfer of the MBA program funding from UNL to Kearney is retained in totality in the bill and represents a net decrease of $33,043 of State General Fund for Fiscal Year 1984-85.

It is my understanding that Kearney State College is prepared to assume responsibility for the current program. Funding in the amount of $24,579 General Fund and $4,950 Cash Fund for Kearney to proceed is provided.

While I endorse the concept of the Kearney MBA program and lean very heavily toward endorsing a similar concept at Chadron and Wayne, more study and planning are necessary. In both cases, more analysis of demand, alternative delivery mechanisms, and costs will be needed before funds are appropriated.

Sincerely,
(Signed) ROBERT KERREY
Governor

April 9, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I return LB 962 without my signature and with the following objections.

While LB 962 contains several worthwhile changes in our revenue laws, the amendment which was added to lapse the interest from the Cash Reserve Fund to the General Fund requires me to veto the bill.

The Cash Reserve Fund was created last year and the temporary 1/2¢ sales tax expired just last week. Thus far, we have kept our commitment to the citizens of a one time-temporary tax for a greater purpose. However, if the Cash Reserve Fund does not accumulate interest it will represent a smaller and smaller safeguard as the budget continues to grow.

I urge you to sustain my veto.

Sincerely,
(Signed) ROBERT KERREY
Governor

April 9, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol

Lincoln, Nebraska 68509

Dear Senators:

I hereby return LB 341 and LB 341A without my signature and with my objections. LB 341 makes significant changes in our school finance mechanisms and links reduced property taxes to increased State tax support.

My overall goal for Nebraska's schools continues to be one of improved quality. Only through enhanced teacher training and improved student performance can we face a changing environment. When we have shown progress towards that goal, we can entertain suggestions about financing and organization. LB 341 is a dramatic and noble effort but it is not timely.

Sincerely,
(Signed) ROBERT KERREY
Governor

April 9, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I am herewith returning LB 1059 without my signature and with my objections.

Last week you passed two similar measures (LB 1058 and LB 1059) authorizing the Governor to enter into a compact with other states relating to planning for use of the Missouri River. I have chosen to sign LB 1058.

My veto, therefore, is based on the decision that, in view of the passage of LB 1058, LB 1059 is redundant to accomplish its intent and purpose.

I urge you to sustain my veto.

Sincerely,
(Signed) ROBERT KERREY
Governor

MESSAGES FROM THE GOVERNOR

April 9, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am hereby returning LB 809 without my signature and with my objections.

LB 809 reinstates the general homestead exemption program, a concept that was eliminated last year through LB 396. Although the program will not have a fiscal impact on the state during FY 84-85, the long-term costs are extreme.

I believe that strong arguments can be made for the homestead exemption proposed by LB 809 as property tax relief; however, the state is not in a position to fund the fiscal ramifications created by LB 809.

I urge you to sustain my veto.

Sincerely,
(Signed) ROBERT KERREY
Governor

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am hereby retruning LB 769 without my signature and with my objections.

LB 769 changes the percent of city sales tax receipts retained by the Department of Revenue from 3% to 1%. Retailers are allowed by law to collect 3% on the first $5,000 remitted each month and 1% of all amounts in excess thereof. If a change is to be made in the amount retained by the Department of Revenue, it should correspond to the provisions for the retailers.

I urge you to sustain my veto.

Sincerely,
(Signed) ROBERT KERREY
Governor

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Senators:

I am herewith returning LB 645A without my signature and with my objections.

LB 645A appropriates $3,000 to the Department of Education to promulgate rules and regulations for approving telecommunications courses for credit at the elementary and secondary level. My veto of LB 645A is based on the belief that the Department should be able to absorb the cost from within the agency budget and no additional funds are required for this program.

I urge you to sustain my veto.

Sincerely,
(Signed) ROBERT KERREY
Governor

Dear Senators:

I hereby return LB 994A with my signature, my objections, and my line item reductions. LB 994 presents a program for substantial improvements in Nebraska's public education system.

My line item reductions leave $400,000 to enable the Department of Education to implement all the improvements in teacher qualifications, adequate learning time, curriculum standards, and graduation requirements.

In addition, that appropriation will allow the Department to make all necessary preparations for full implementation of the innovative programs and staff development support next fiscal year.

I remain fully committed to excellence in education in Nebraska's schools, including higher teacher salaries, and will work with you to ensure that we make substantial strikes to that end once again next year.

Dear Mr. President and Senators:

I am herewith returning LB 112 and LB 112A without my signature and with my objections.

LB 112 creates a statewide program of support and services, including prenatal educational programs for financially eligible high-risk pregnant women. While I do not disagree with the concept of this bill, the financial commitments made by the state thus far make the timing for this additional commitment inopportune.

It is my hope that the State of Nebraska could provide preventive services for infants and pregnant women from existing program resources.

Sincerely,

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509;

Dear Mr. President and Senators:

I am returning LB 1106A with my signature but with specific line-item reductions.

The net effect of these reductions is to provide $1,500,000 in addition to that provided by LB 1128 for the Resources Development Fund, $500,000 for the Water Management Fund, and $40,883 for administration of the Water Management Fund.

The monies in LB 1106A and in LB 1128 for the Resources Development Fund will provide:

1) $1.9 million that the Natural Resources Commission feels is necessary for those projects that are approved or near approval in 1984-85; and
2) $1.0 million for additional water projects or for groundwater management plans to be prepared by the Natural Resources Districts as mandated by LB 1106.

The $500,000 for the Water Management Fund in LB 1106A will provide monies for feasibility studies or construction of projects over $10,000,000 as approved by the Water Management Board. The

$40,883 will allow the hiring of a staff member by the Natural Resources Commission to manage the Water Management Board activities as provided in LB 1106.

The total sum available for water projects in FY 1984-85, as a result of LB 1106A and LB 1128, is $3,351,800. This is less than I hoped would be available for water management, which is a top priority for me and the vast majority of Nebraskans. Unfortunately, this was not possible given the other expenditures made by the Legislature this year.

Dear Mr. President and Senators:

I am herewith returning LB 762 without my signature and with my objections.

LB 762 revamps the Nebraska Administrative Procedures Act relating to the formulation, promulgation, and adoption of administrative rules and regulations. While the intent of this bill is not without merit, the requirements set out under LB 762 would not only be burdensome and expensive for state agencies, but will slow down the rule adoption process unnecessarily and may encourage undue growth in law suits involving state agencies.

Sincerely,
(Signed) ROBERT KERREY
Governor

MESSAGES FROM THE GOVERNOR

April 13, 1984

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 913 without my signature. This bill requires the Director of Social Services to allocate 92% of the Community Services Block Grant funds Nebraska receives to community action agencies. This is an unwise intrusion into the Executive's responsibilities and should not be placed permanently in the statutes.

The purpose of the federal block grants was to increase State discretion in the use of federal funds. LB 913 reduces our flexibility, and commits our administrators to an allocation scheme that cannot be quickly modified in response to federal budgetary maneuvers. Also, LB 913 requires the State to support non-public entities which should be selected only through competitive procedures.

Sincerely,
(Signed) ROBERT KERREY
Governor

Dear Senators:

I hereby return LB 960 without my signature and with my objection.

LB 960 establishes a program which attempts to attract quality educators and renowed scholars to the State Colleges and the University. While I commend Senator Landis in pursuing this worthy idea, I find no guarantee in the wording of the bill which requires the institutions to seek new private funds to support the program. A significantly large General Fund commitment could be required if the University and State Colleges used existing private funds which have been contributed to support endowed chairs and similar programs for the required 2/3 match. Without the clear mandate to seek new private funds, less than the desired impact of substantially increased funding would be realized.

In addition, I feel the decision to fund a program of this nature should receive careful consideration as a part of studies to be undertaken this summer concerning postsecondary education programs.

Sincerely,

(Signed) ROBERT KERREY
Governor

Dear Mr. President and Senators:

I am returning herewith LB 852 without my signature and with my objections.

LB 852 purports to address a serious problem in Nebraska, that of damage to agricultural and business property as a result of drainage by another landowner. However, the bill as amended on the Legislative floor provides no workable solution to the problem, and may in fact engender a false sense of security for some.

I would recommend that affected parties, including agricultural interests, natural resources districts, and municipalities, work during the interim to develop a practical solution to be pursued in the 1985 session.

Sincerely,
(Signed) ROBERT KERREY
Governor

Dear Mr. President and Senators:

I am returning LB 981A with my signature but with a line item reduction.

Program review is a most worthwhile concept and one in which the Postsecondary Education Coordinating Commission should certainly be involved. Given the mechanism described in the bill, the major responsibilities for this task are assumed by the institutions and the governing boards, and the role of the Commission is one of coordination and synthesis. This role can and should be accomplished by existing staff.

Likewise, tuition rate studies conducted biennially and planning for the as-yet unfunded Nebraska State Scholarship program are functions which can be accomplished by the current staff.

I am therefore vetoing the funding back from $49,647 to $15,500. This amount should be sufficient to cover additional computer programming and operating expenses and allow for the purchase of comparative tuition information from the National Center for Higher Education.

Sincerely,
(Signed) ROBERT KERREY
Governor

Dear Mr. President and Senators:

I hereby return LB 561 without my signature and with my objections.

LB 561 would extend the scope of practice of optometrists and optometrics into the area of therapeutic treatment of eye disease, and eye disorder without the necessary and proper supervision of qualified personnel.

LB 561 would allow persons with limited, or nonexistent clinical experience, the authority to diagnose, and treat any abnormal condition of the human eye or lid.

While LB 561 received 25 votes, there was a clear lack of consensus on the merits of safely extending the scope of practice to optometrists for the therapeutic treatment of eye disease or eye disorders.

Sincerely,
